# OUR FULL DEMANDS FOR MAY DAY

## **EQUAL RIGHTS FOR ALL WHO LIVE HERE**

---

Abolish ICE. End all deportations, all detentions. Indict those who killed Renee Good and Alex Pretti, and all those responsible at all levels for violations of rights. Freedom of movement for all. End all limits on the right to vote, to unionize, to organize and to strike. End all limits on reproductive rights. Equal votes for all.

## **FREE EDUCATION, HEALTH CARE, TRANSPORTATION, HOUSING, AND CLEAN ENERGY FOR ALL**

---

The right to quality free education at all levels, free health care, free transportation, free housing and free clean, sustainable energy FOR ALL. The government must provide democratically-controlled quality services for all through a massive infrastructure project with direct government employment.

## **FUSION ENERGY & RENEWABLES – NOT FOSSIL FUELS**

---

To power a goodlife for all in the world, replace deadly oil, gas and coal with renewables, such as solar and wind, AND cheap, clean, safe, decentralized and unlimited fusion energy through a government-funded crash program of research, development and mass production to speed a transition to a fusion powered economy.

## **SUSTAINABLE, SOCIALLY PRODUCTIVE, REWARDING, AND UNIONIZED JOBS**

---

The right to sustainable, socially productive, rewarding, and unionized jobs with just wages and shorter hours. Providing quality free education, health care, retirement security, transportation, housing and clean energy globally will also provide good jobs for all.

## **END ALL U.S. WARS – DISMANTLE THE WAR MACHINE**

---

End all U.S. wars (Iran, Gaza, Lebanon, and all future wars), dismantle the war machine. End arms shipments to Israel and elsewhere, end all occupations, and blockades, close all US foreign military bases, slash military production and redirect those military expenditures to meet human needs, convert arms production to civilian needs, retrain military personnel for civilian jobs.

## **TAKE BACK WHAT THE BILLIONAIRES HAVE STOLEN**

---

Immediate sale of all government-held bank and corporate bonds. Federal ownership of all finance—banks, insurance, investment companies -- with democratic control. Wealth taxes on the wealthiest. Immediate cancellation of student and consumer debts. Elimination of interest on mortgage debt and phased reduction of principal. Cancellation of international debt. Abolition of the IMF and World Bank.
